RUSSIAN COURSE INFORMATION

Up your game in lash artistry by gaining a recognised qualification in Russian lash extensions, learn the art of creating fans of lashes like a pro. You'll be given hands on learning of how to create multiple styles of fans and different applications in order to achieve that perfect look.

Unlike classic lashes, which are natural and subtle, russian lashes can be used to create a much more dramatic look. The possibilities are endless when it comes to styles. In this course we will learn the 'uniform' doll eye style. Please take a look at our Advanced Styling course where we learn the art of styling. Learn how to achieve the much sought after cat eye & wispy looks.

Russian lashes are applied using the classic lash technique, however instead of a single lash, we apply a fan of lashes. Fans sizes will be determined on the natural lashes of each client. Lashes can last up to six weeks, providing the client follows the aftercare advice. Treatment can take up to 3 hours initially, (speed comes with practice) but your client should find this a relaxing experience. Clients can come for infills every 2-3 weeks if they prefer to keep their lashes on long term.

Treatment cost to the customer is up to £100, although this depends on your area & skill level.
