ADVANCED STYLING COURSE INFORMATION

Our advanced lash styling course is the ideal next step for already qualified lash technicians.

This course will help take you to the next level when it comes to creating bespoke sets of lashes. Styles such as Kimmy K, Cat Eye & Choppy strip lash looks have become a popular choice of clients, this course will help you achieve these looks and so much more.

In addition to learning lash styles with mapping, mixing curls & lengths, we will also discuss the skill of taking good photographs. Photographs are the most important thing when it comes to advertising our work. Getting the correct angles and lighting to best showcase our work, then advertising these photographs will be how we build up our clientele and our popularity in the lashing world.

Treatment cost can vary depending on your location and competitors pricing.

We will provide all products to work with on the day of training.
